

# Social Safeguards Due Diligence Report

---

April 2022

## India: Kolkata Environmental Improvement Investment Program - Tranche 2

Subproject : Subproject : Laying of Water Supply distribution network including providing household service connection in 4 distribution service areas in Joka & adjoining areas for the command area under proposed ESRs under Package (TR-02/WS-17A) & (TR-02/WS-17B)

Prepared by The Kolkata Municipal Corporation (KMC), Kolkata for the Asian Development Bank

This social safeguards due diligence report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

IND: Kolkata Environmental Improvement Investment Program –

Laying of Water Supply distribution network including providing household service connection in 4 distribution service areas in Joka & adjoining areas for the command area under proposed ESRs at Prantik Ph-III, N-E of SSE STP and N-W of SSE STP & existing ESR at Prantik (TR-02/WS-17A) & Laying of Water Supply distribution network including providing household service connection in 4 distribution service areas in Joka & adjoining areas for command area under proposed ESRs at Company Pukur, WBSETCL & 22 Bigha & Existing ESR at Diamond Park (TR-02/WS-17B)

Prepared by Kolkata Municipal Corporation (KMC) for the Asian Development Bank.

This due diligence report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature.

## **ABBREVIATIONS**

ADB	- Asian Development Bank
BPL	- below poverty line
DH	- Diamond Harbour Road
ESR	- elevated service reservoir
KEIP	- Kolkata Environmental Improvement Project
KEIIP	- Kolkata Environmental Improvement Investment Program
KMC	- Kolkata Municipal Corporation
MFF	- multi-tranche financing facility
NOC	- No Objection Certificate
PHED	- Public Health Engineering Department
ROW	- right of way
S&D	- sewerage and drainage
STP	- sewage treatment plant
LPS	- liters per second
UGR	- underground reservoir
WBSECTL	- West Bengal State Electricity Transmission Corporation Limited

### List of Appendixes

1. Summary of Community Consultation

## I. INTRODUCTION

### A. Background

1. On 26 September 2013, the Asian Development Bank (ADB) approved the provision of loans under a multitranche financing facility (MFF) for the Kolkata Environmental Improvement Investment Program (KEIIP or the Investment Program) for an aggregate amount not to exceed \$400 million. The impact of the Investment Program will be improved access to water supply and sanitation in Kolkata Municipal Corporation (KMC). The outcome will be improved water supply, sewerage and drainage service quality and operational sustainability in selected areas of KMC. KEIIP has three outputs: (i) inefficient water supply assets rehabilitated; (ii) sewerage extension to peripheral areas continued;<sup>1</sup> and (iii) financial and project management capacity further developed. KMC is KEIIP's executing agency. A project management unit (PMU) created under KMC is implementing KEIIP.

2. The first loan under it, Tranche 1 or Loan 3053-IND, amounting to \$100 million, was approved by ADB on 22 October 2013, signed on 3 March 2014 and made effective on 30 May 2014. Project 1, supported by tranche 1, included subprojects for improvement of infrastructure, operations and sustainability in sewerage, drainage and water supply in KMC.

3. The proposed Project 2, supported by the proposed tranche 2 of KEIIP, will include physical and non-physical investments in water supply and sanitation improvement in KMC. Project 2 is aligned with improved access to water supply and sanitation in KMC as defined by the Investment Program.

4. For water supply, a total of eleven contract packages are proposed, of which one is a priority package. Kolkata Municipal Corporation (KMC) is in the process of preparing project proposals for all proposed subprojects under Project 2 to ensure high project readiness.

- (i) **WS - 15:** Construction of Underground Reservoirs & Overhead Reservoirs , Pumping Stations & Linking Pumping Station Mains for Water Supply in Joka & Adjoining Areas including operation & maintenance of the pumping station
- (ii) **WS – 16:** Laying of Transmission Main from Daspara PS to UGRs at Prantik PH-III , KMC Land on Julpia Road ; and Transmission Main from PS to zonal Reservoirs
- (iii) **WS – 17A:** Laying of Water Supply distribution network including providing household service connection in 4 distribution service areas in Joka & adjoining areas for the command area under proposed ESRs at Prantik Ph-III,N-E of SSE STP and N-W of SSE STP& existing ESR at Prantik
- (iv) **WS – 17B:** Laying of Water Supply distribution network including providing household service connection in 4 distribution service areas in Joka & adjoining areas for command area under proposed ESRs at Company Pukur, WBSETCL & 22 Bigha & Existing ESR at Diamond Park
- (v) **WS – 18:** Laying of Transmission Main from pumping station to proposed 3ESRs at Ramkantapur, Malpara, Charaktala & Construction of the 3 ESRs

---

<sup>1</sup> The 1899 Calcutta Municipal Act defined the administrative domain of the municipal authority as covering 25 wards and having an aerial extent of 48.5 square kilometers. Many boundary changes followed, the latest one in January 1984 when Boroughs XI, XII, XIII, XIV and XV were annexed to KMC. These boroughs in the peripheral areas are popularly known as "added areas".

- including laying of Distribution Network with House service connection within the Command Area of the 3 ESRs for Water Supply in Joka and adjoining areas
- (vi) **WS – 20:** Construction of Pumping Station to handle Sludge Water of Garden Reach Water Works (GRWW)
  - (vii) **WS – 24:** Dedicated Water Supply Transmission Main from junction of James Long Sarani to Daspara near existing pumping station along James Long Sarani
  - (viii) **WS – 25:** Performance Based Contract for Water Loss Management in Anandapur Area and Patuli Area under Jai Hind WTP
  - (ix) **WS – 26B:** Water Supply System Instrumentation and Information Technology Upgrade
  - (x) **WS – 33:** Augmentation of storage capacity and transmission main under Jai Hind WTP- clear water reservoir, service main and electro mechanical works
  - (xi) **WS – 01:** Performance Based Water Loss Management Works at Cossipore Service Zone, Ward No. 1 to 6

## **B. Scope of this Report**

5. A draft land acquisition and resettlement due diligence report (DDR) was prepared and disclosed for the proposed water supply contract package TR-2 WS17 in 2016, that laying of distribution system and house connection within the command area of 8 ESRs (6 ESRs proposed under different packages of KEIP Project 2, and 2 existing ESRs). Further the package has divided into two parts which are as follows

- a. **WS – 17A:** Laying of Water Supply distribution network including providing household service connection in 4 distribution service areas in Joka & adjoining areas for the command area under proposed ESRs at Prantik Ph-III,N-E of SSE STP and N-W of SSE STP& existing ESR at Prantik
- b. **WS – 17B:** Laying of Water Supply distribution network including providing household service connection in 4 distribution service areas in Joka & adjoining areas for command area under proposed ESRs at Company Pukur, WBSETCL & 22 Bigha & Existing ESR at Diamond Park

6. This DDR has been updated covering both the parts as sated above, based on the final design derived from the preliminary design without making and changes in the components; based on which detailed measurement survey (DMS) has been conducted in the month of December 2019. No Involuntary Resettlement impact has been identified during the DMS. During the implementation stage, regular monitoring will be done by the social safeguard officer PMU and the findings will be incorporated in the semi-annual social monitoring report.

7. During project implementation, the officer designated for social safeguards at PMU will (i) undertake a review and monitor this due diligence; (ii) update DDR or prepare safeguards document as required if there is a change in project design and scope; and (iv) report the status in SMR.

## **C. Methodology followed for Due Diligence**

8. The DDR is prepared based on the detailed project report of the subproject, and to fulfill ADB Safeguard Policy Statement (SPS), 2009 and the agreed resettlement framework requirements of the project. This report describes the findings of the field verifications of the design, consultations with project engineers. The copies of available public consultations and

photographs are made part of this report.

## II. SUBPROJECT DESCRIPTION

9. The areas added to the city of Kolkata after 1984 ('added areas') have major gaps in supply of potable water. The subproject location is at the southern part of KMC area. Surface water from River Hooghly is presently supplied by PHED in this area. The water presently being supplied by State PHED is inadequate to meet the demand of the subproject area. Need for an improved water supply system is identified for successful service delivery of potable water. The overall objective of the water supply subproject in Project 2 is to enhance the service levels using a phased approach, to arrive at the target service levels.

10. Under project 2 water supply package TR-2 WS17A & 17B, proposed components include: Table 1 provide details of proposed components under package WS17A & 17B.

**Table 1: Proposed Components under package TR- 2/WS 17**

S. No.	Proposed Components	Capacity / Length / No.
<b>I. Distribution Pipeline</b>		
1	Under command of ESR A1 (existing)	21 Km
2	Under command of ESR A2	48 Km
3	Under command of ESR A3	38 Km
4	Under command of ESR A4	27 Km
5	Under command of ESR B1	24 Km
6	Under command of ESR C1 (existing)	30 Km
7	Under command of ESR C2	28 Km
8	Under command of ESR C3	29 Km
<b>II. House Connections</b>

## III. FIELD WORK AND PUBLIC CONSULTATION

### A. Outline of Field Work

11. In December 2019 field inspections were carried out along the proposed locations of proposed subproject components and stakeholder consultations were conducted. As part of subproject sites and alignment locations.

### B. Public Consultation

12. Stakeholder consultations were undertaken in line with ADB's requirements pertaining to environment and social considerations. Meetings with stakeholders helped identify the felt needs, concerns and apprehensions of the communities related to the project, as well as their priorities.

## IV. LAND AVAILABILITY AND RESETTLEMENT IMPACTS

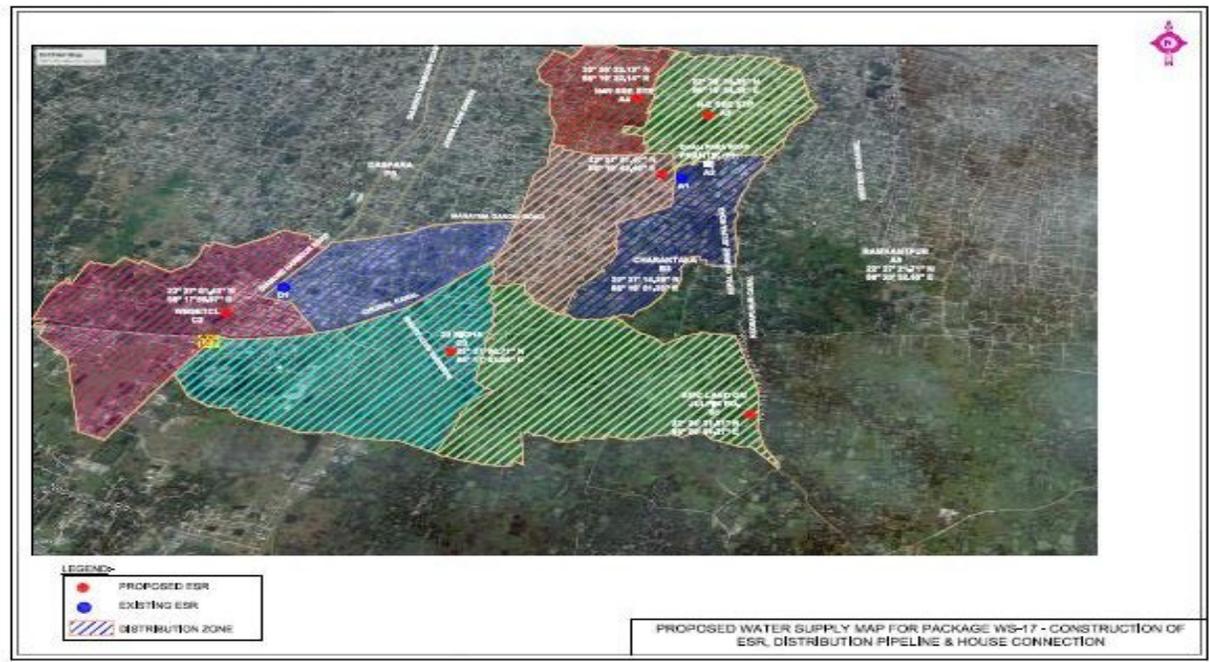

### A. Distribution pipelines and house service connections

13. No land acquisition or resettlement impacts are assessed during DMS as all civil works for laying of pipelines proposed under the subproject are within the ROW of government roads. No additional land will be required for the proposed subproject and no structure will be affected due to the civil work undertaken for the laying of the pipeline. Based on field visits and DMS, it was assessed that it will be possible to maintain access to shops and residences; hence no IR impacts are recorded.

14. Prior notice will be given to the community before start of civil work. Access will be ensured by the contractor by avoiding excavation of adjacent footpaths and/or by providing planks for pedestrian access. Potential disruptions at pipe crossings at congested, commercial areas are to be mitigated by undertaking night work and minimizing the construction period.

15. House service connections will be carefully executed by the contractor, avoiding/restoring any small damage to private property. No incidents of tree cutting and minimal utility shifting is assessed during DMS.

**Figure 1: Google Earth Map Depicting Proposed Subproject Components under TR- 2/ WS17A & 17B**

Source : Design and Supervision consultant, KEIIP

## V. GRIEVANCE REDRESS MECHANISM

16. A common grievance redress mechanism (GRM) has been established for social, environmental or any other subproject related grievances.

17. Grievance Redress Process: PMU maintains a Complaint Cell at KEIIP office, located at 206 A J C Bose Road Kolkata 700017 headed by a designated Grievance Redress Officer, which is currently officiated by the Administrative Officer under Project Director of KEIIP. The Complaint Cell located at different KMC Borough offices (for this package Borough XIV is serving as the Complaint Cell) will also serve as Public Information Centers, where, apart from grievance registration, information on the Project, subprojects, social and environmental safeguards, etc can be provided.

18. At every Borough Office of KMC under which the civil works are in progress, a drop box has been kept to receive and complaints and suggestions from the community people. At Contractors' site offices, complaint and suggestion register have been made available for lodging any complaints. The concerned Executive Engineers of KEIIP monitor these registers during their site visits and if possible take necessary actions for redressal of minor complaints with intimation to the complainant.

19. The Grievance Registration / Suggestion Form are available at the Complaints Cell and in Borough Offices and will also be downloadable from the KEIIP/KMC websites. Grievances / suggestions of affected persons can be dropped into suggestion boxes or conveyed through phone or mail. Affected Persons will also be able to register grievances - social, environmental or other, personally at the Complaint Cell and at Borough offices of KMC.

20. All complaints (unresolved at local site / Borough level) relating to KEIIP are to be sent to the project Director, KEIIP including those received in the KMC/KEIIP website for redress. The Grievance Redress Officer is responsible to resolve simple unresolved issues and in case of complicated issues, consult/seek the assistance of the Environment/Social Specialist of the DSC/PMU. Grievances not redressed through this process within one month of registration will be brought to the notice of the Project Director, KEIIP. Action taken in respect of all complains will be communicated to the complainant by letter, over phone or e-mail as the case may be.

21. Periodic community meetings with stakeholders have been conducted on regular basis, explaining the Grievance Redress Mechanism of the project. Banners and Posters explaining Grievance Redressal process have been displayed at prominent places of subproject area. People have been informed that they can lodge their complaints at every construction sites or Contractors' site office of respective packages.

22. Grievance Redress Committee (GRC): A PMU level GRC has been constituted by the Project Director to address grievances. Grievances not resolved at borough level are referred to PMU level. However grievances that cannot be resolved at PMU level may be referred to the apex grievance redress committee (GRC).

23. Time period for grievance redress at each level are as follows:

- Site level – 7days
- Borough level – 7days
- GRC – PMU level – 15days
- Apex GRC - 15days

## **VI. CONCLUSIONS**

### **A. Summary and Conclusions**

24. During DMS in December 2019 no IR impacts are assessed at identified sites for sub-project components under package TR-2 WS 17A & 17B, as the entire pipe alignment is proposed within government road ROW. Some disruption of traffic during construction is possible; however, this will be mitigated with proper traffic management planning by the contractor, in discussion with local authorities and the community.
